

Sally Hansen®

EXTRA STRENGTH

PRECISION BRUSH-ON HAIR REMOVER

EXCLUSIVE BRAZILIAN FORMULA

Perfect For:

- Upper Lip
- Cheeks
- Chin
- And More!

Finally! A hair remover that leaves no doubt... your hair will be completely removed. No more missed hairs... even pesky little hairs are removed. The natural botanical formula with Orchid and Marine Extracts relaxes hair for easy, complete removal while pampering and moisturizing skin. You get beautiful, shiny, smooth skin... without the expense and trouble of costly salons!

The Extra Strength collection is formulated to glide on exactly where you want without the gooey, drippy mess of other hair removers. Each remover has vanilla fragrance to please the senses while you remove hair. And, as with all Sally Hansen hair removers, continued use will help reduce the appearance of hair regrowth.

Choose the perfect solution for all your individual hair removal needs.

Get Beautifully Bare

- Quickly Yet Gently Dissolves Away Unwanted Hair Just Below Skin's Surface
- Natural Botanical Formula Relaxes and Softens Thick, Coarse Hair for Easy Removal
- Orchid & Marine Extracts Nourish and Moisturize Skin
- Helps Reduce the Appearance of Hair Regrowth
- Skin Looks Beautifully Bare, Feels Soft and Smooth

Please read this instruction booklet carefully before proceeding with treatment.

Where To Use

Upper lip, cheeks, chin, hairline. DO NOT USE NEAR EYES OR EYEBROWS. AVOID CONTACT WITH LIPS.

Patch Test, First

Test before each use by applying, as directed, to a one-inch square area on the inner fold of the elbow. Leave on for 8 minutes. Wipe off thoroughly with a damp tissue or cotton ball. Wait 24 hours. If no redness or irritation develops, proceed. Irritation or allergic reaction may occur with some people, even after prior use without adverse effect.

Directions:

- Remove cap. Gently squeeze tube until brush is saturated with hair remover creme.
- Brush creme over the hair you want to remove, covering it completely. DO NOT RUB IN.
- Wash hands immediately and thoroughly if you get creme on them.
- Wait 3 minutes. Test a small area by wiping hair remover away with a dampened tissue or cotton ball. If hair comes off easily, thoroughly remove with a moist tissue or cotton ball. Rinse thoroughly with lukewarm water and a washcloth. DO NOT RUB. Do not use soap. Pat dry.
- If hair does not remove easily, leave on a few minutes more and re-test. Do not leave on LONGER THAN A TOTAL OF 8 MINUTES. Do not allow hair remover to dry on your skin.
- Wait 24 hours before repeating application.
- Rinse bristles under warm water until completely free of creme. Dry and tightly replace cap.

Caution

Test before each use by applying as directed under "Patch Test, First" directions. **Wait 24 hours.** If no redness or irritation develops, proceed. Irritation or allergic reaction may occur with some people, even after prior use with no adverse effect. **Avoid eye area.** If product comes in contact with eyes, wash immediately with cold water. If irritation occurs, seek professional assistance. Do not use on breast nipples, perianal or vaginal/genital areas, in nose or ears, on cut, irritated, inflamed, chapped or sunburned skin, over moles or warts, or on recently tweezed or shaved areas. **FOR EXTERNAL USE ONLY. KEEP OUT OF REACH OF CHILDREN.**
